Yishi Jin, PhD

University of California San Diego

**Thursday, April 18, 2024
12-1 p.m. EST**

“Mechanisms of neuronal maintenance”

Hosted by Neurodegeneration & Injury FAWG

The Jin lab focuses on discovering the mechanisms underlying the development, maintenance and function of the nervous system using the nematode *Caenorhabditis elegans* and mice. The ultimate goal is to connect the studies of basic mechanisms to the understanding of human neurological disorders and neuronal repair.
